This book is © Lonnie Readioff 2017, though the original charts that this book is derived from were first produced in Record Mirror (1956-1958), Melody Maker (1958-1960) and Record Retailer (1960-1969).

The book is presented on an as-is basis. While every effort has been made to make sure it is free from defects I will not be held responsible if it does nasty things to your computer. Though it shouldn't. But if it does, it's not my fault.

Notes on the text

As with any book of this nature there are mistakes inside its pages. I would be stupid to think that there were none. So, if you spot a mistake and let me know, I'll correct it and you'll get your name in the book. Drop me an email at the14thdoctor@gmail.com and I'll check out the error, though I also welcome praise and criticism, both for the book and the layout of the book.

Various publication errors, including incorrect positions, have been identified and corrected by reference to the original chart issues. Corrections to titles, label details and other information by reference to internet searchers and copies of the original records

As far as can be tested this book is virus free, though it may contain traces of nuts.

I'd also like to thank my wife for encouragement in this project.
